OF We copy this morning from the Paducah Herald, of the 10th, an article calculated to destroy the small sum total of capital upon which the remains of the late Know-Nothing party expect to conduct the coming canvass in this State. As yet, their organs have confined their attacks exclusively to the Democratic candidate for Lieutenant Governor, and their only ground of assault upon him is that he and Clay were personally unfriendly. The documents to be found in the article to which we refer put an end to this charge—flimsy and silly as it must be, even were it fully substantiated. It is but simlife as has Col. Boyd. As a politician and resenting in part the Sovereignty of Kentucky on statesman, he has a public record and a dis-tingtive character of his even entirely inde-degrading himself or of being susceptible to any tinctive character of his own, entirely independent of the personal regards of Clay, and might be called upon to give; one that should at by these alone should he be judged. In common with the whole Democratic party of the Union, Mr. Boyd condemned the course of Mr. Clay in the Presidential election by the House of Representatives in 1824, and a speech in Congress, in 1844, in reply to George H. Morrow, Esq: ex-Speaker White, who had made a speech on My Dear Sir : I have just received your com the subject in which he attacked Col. Deeming it quite desirable poisonous shafts fell harmless at his feet, and of the desperate straits to which they are driven for means of opposition to Col. Boyd.

During the greater part of the lives of Mr. Clay and Col. Since our paper has gone to press we have received the following extraordinary document, d stop the press to lay it before our readers comment is unnecessary. Friends of Henry Clay, if you respect the memory of the departed, can you vote for Boyd?

PADUCAH, July 29th, 1853. John D. McGoodwin, Esq.:

Dear Sir: You are aware that in Boyd's appeal to the Whigs, he states that Clay freely forgave him for his past hostility, that Clay and he were intimate friends during his last illness, and gave orders that Boyd or wife should be admitted at any time they might call, either by day or by Mr. Clay, to the best of my recollection and Believing that there must have been a belief. mistake somewhere, I telegraphed to Thomas H. Clay yesterday upon the subject, and received just now the following answer, of which you may make such use as you deem proper and prudent.

Again last winter, pending the Senatorial canvass, this miserable piece of electioneering ware was again paraded before the public; and although it was the joint work of Geo. D. tice of it. this miserable effort to damage him is resorted to by his enemies. In constant dread of Col. Boyd's power and influence, their vocation is to abuse and villify him.

We have conclusive evidence that Mr. Clay and Col. Boyd were friendly, and that, upon Mr. Clay's request, Col. Boyd and his wife did visit him in his last illness, after his physicians had advised the exclusion of visitors. Happening as this did before Mr. Thomas H. Clay arrived in Washington, he of course knew personally nothing of it. When it is remembered that Mr. Clay was confined for months, and that his son, Mr. T. H. Clay, did not join him until he was altogether too feeble to receive the visits of his friends, it will be at once seen that there is no room for material discrepancy in the respective statements of

Col. Boyd and Mr. T. H. Clay. We are aware that some of Col. Boyd's slightly different. The adventure would do for the handsome Dr. Haynes, celebrated for his marrying propensities:

DYSPEPSY.

A S SHOWN by the statements of the Board of Health of New York, caused the death of 76 persons out of 611 deaths, in one week, and 131 deaths by consumption induced by Dyspepsy. As it is a well attested fact that Dyspepsy is the origin of the sufferings of a large portion of those who die of consumption, it becomes the duty of every one to use such precautions against, and remedy for Dyspepsy, as science and experience have placed before them, and which have proved to be efficacious; of this character is "Dr. Williams' Anti-Dyspeptic Elixir." in corroboration of which, read the following testimoniais:

Testimony of Mr. Edward H. Rowley, of the firm of Rowley, Ashburner & Co., 14 North Wharves, in proof of the efficacy of Williams' Anti-Dyspeptic Elixir. PHILADELPHIA, October 29, 1849.

Communication to John R. Penrose, Esq., from Mr. Franklin Eyre, Kensington. It is with great gratification that I testify to the efficacy of "Williams' Anti-Dyspeptic Elixir." which you so strongly recommended to me, and for which I heartily thank you; it has completely restored my health, which I cheerfully publicly acknowledge, with the hope that others may be similarly benefited.

Truly yours.

As we have for many years been paying more than \$3.000 annually to the British Publishers for the matter furnished in these Periodicals, thus virtually becoming copartners with them in the profits of the Reprints, we trust the public will consider this in bestowing their patronage, and give us the preference over Eelectic and over patchwork publications, whether monthly, or weekly, which now extract so liberally from our works and pay nothing either to the Foreign Publishers or to us for the same. As to cheapness nobody can complain of paying \$10 a year for the four leading British Reviews and Blackwood's Magazine, and by taking these works entire, subscribers are not obliged to be guided by others in the choice of the articles they may desire to read, Moreover, taking into consideration the style in which our Reprints are published and their acknowledged fidelity to the original editions, and also the advantage of an early issue by means of the advance Sheets—our series will be found as cheap as any of the competing publications to which we have alleded OUR REPRINTS versus ECLECTICS, &c. competing publications to which we have a

A CARD

From Dr. James M. Jarrett, of the New York Lung Infirmary.

MY connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and sueheretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce, in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, Inhaling Vapors, Medical Inhalers, &c., &c., will be forwarded by express to any part of the United States or the Canadas. Terms—My terms of treatment by letter are as follows, viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance \$6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their s. mptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely apon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address.

JAMES M. JARRETT, M. D..

No. \$20 Broadway, cor. Twelfth St., N. Y. P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.

The Gas in the Vesper Gas apparatus is generated from Coal Oil, (manufactured expressly for it,) which we call the Vesper Oil; and which we are able to supply, however great may be the demand, at a price that will not exceed one dollar per gallon. At this price we can furnish the light of ten sperm candles at the very low cost of half a cent per hour.

We have established our manufactory in this city, and are prepared to furnish fixtures of every description, from a magnificent sixteen-light chandelier to an ordinary one-light side fixture. We ask those in need of such an article to examine our Light before supplying themselves, and we feel satisfied that they will find it the cheapest, safest, and most convenient Light now before the public.

Confiding in the superior merits of the Vesper Gas Ligot, we—unlike others—have no Patent Rights for sale. We offer our fixtures to the Trade of Kentucky, guaranteeing entire satisfaction, and obligate ourselves to refund the cost of the aparatus, should any dissatisfaction be expressed. Those desirous of testing the merits of this Light, by inclosing us five dollars, will have forwarded to them, by Express or otherwise, a neat one-light fixture, and a gallon of Vesper Oil, in a close can. gas lights, competing directly with coal or street gas:
1st. In the beauty of the fixtures;
2d. In the Cleanliness of the apparatus.
3d. In its safety and convenience.
And surpassing coal or street gas in its brilliancy and
economy—costing less than one half the price of coal
gas in Louisville or Cincinnati—affording 1,000 cubic
feet of excellent gas for \$1.50.

It has long been desired that the luxury of Coal or
Street Gas, now in use only in cities, could be produced in a portable and simple form. The Vesper Gas
or Air Light, patented by D. H. Carpenter, August 4,
1857, and May 25, 1858, is confidently offered to the
public as more than the realization of that desire.
We could give the testimony of a host of persons
who have the light in use, but content ourselves by
stating that the eminent chemists, Professors James
J. MAPES, CHARLES A. STELEY, and A. K. EATON,
of New York, after a thorough examination of its
merits, pronounced it the best and cheapest light now
in use.

Artificial light of some sort is a universal necesout annoyance or trouble. Its price is within reach of all-rich or poor; all may have it, and all should have it who are sick, and suffering in any way.
